Hi Roy,

Mr. Stevens called me before sending this email out. In our conversations, he mentioned that on Dec. 6th there will be a press conference, where he plans to recognize those who are donating their services, etc... (see msg below.). I don't know if there will be any mention of EPA, ( good or bad ) or not, but here's a 'heads up' re; the possibility of it.

Call if any questions.  
Thx.

Trish Taylor, Community Involvement Coordinator

Subject: Dimock Needs Water Trucks and Drivers Now, Please Help, Thank You !!!

The water deliveries are stopping today 11/30/11 to Our friends in Dimock. I am coordinating the donated use and availability of Water trucks and drivers from Any communities that offer assistance. Penn American Water has stepped up to provide a potable source in Montrose to fill up unless they want to fill up at home before driving to Dimock, though that uses more fuel.

Matt Ryan the mayor of Binghamton has agreed to Help out immediately and We are asking for Anyone else interested in helping to contact Me ASAP. We are trying to get the first deliveries scheduled for tomorrow or Friday at the very latest. When We meet on 12/06/11 in Dimock I will be praising the people who are offering their Help and Exposing any of those opposing this effort like Corbett and Krancer.

We are also looking for Major Donors or Philanthropists to raise the funds needed

to build the Pipeline that was promised by the DEP and Pa last year that was stopped. The cost is in the 12 Million Dollar range but We are looking at loan availability but needed a financial backer that believes in the cause at this season of giving.

Today is the time to Stop the Talking and Blaming, It is time to step up and get this done, as I said at the DEC hearing in Binghamton " Three and a Half Years is Enough ". Thank You for All You have done and for Helping Us show Our families in Dimock that there are still Good People in the World and that We are grateful to Help if We can.

Thank You
